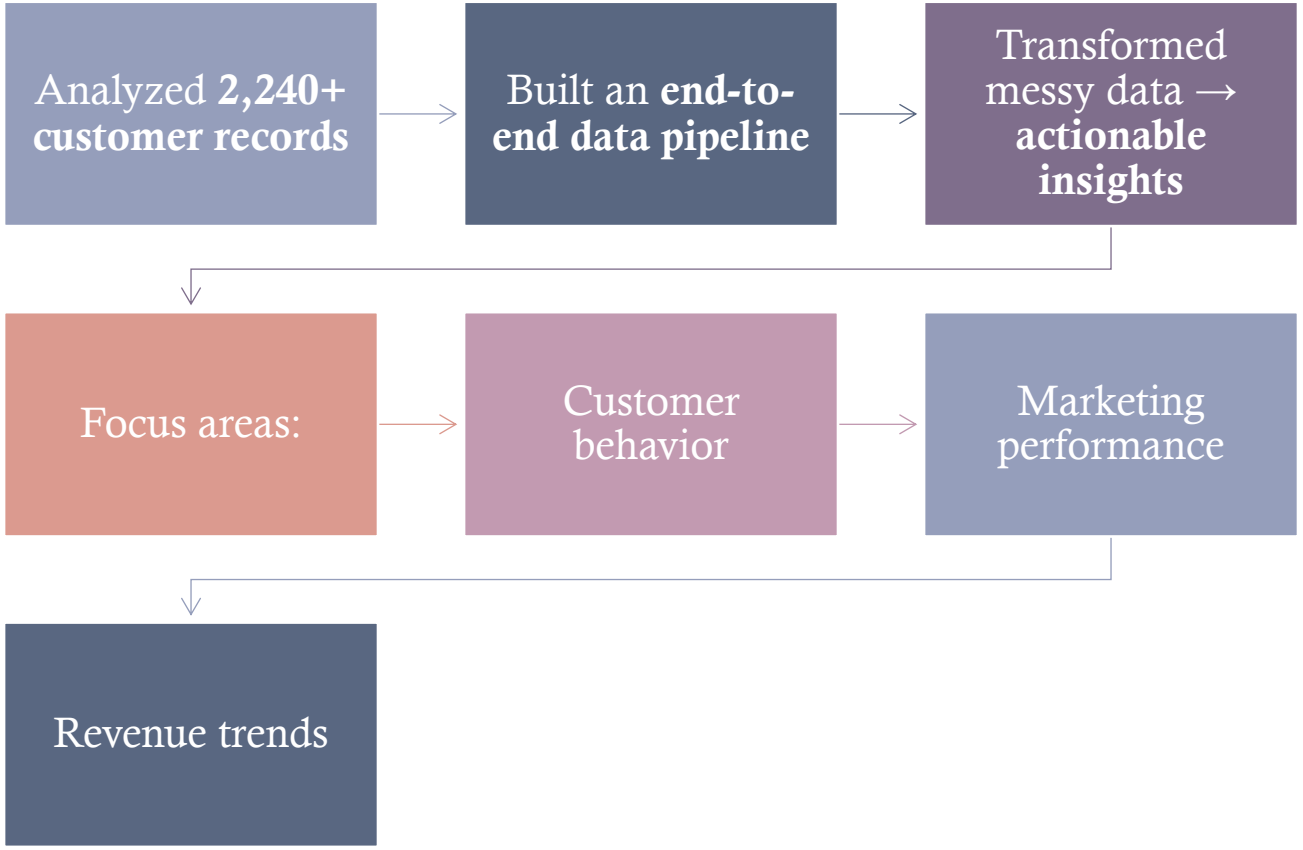
MARKETING ANALYSIS

From Raw Data to Business Insights

By Sharath

PROJECT OVERVIEW



01

High churn rate (**38.4%**) is the biggest risk

02

12.7% customers drive 21.3% revenue (VIP segment)

03

Revenue decline driven by **falling active customers**

04

Instagram & Brochure outperform → Twitter underperforms

KEY BUSINESS INSIGHTS

CUSTOMER RETENTION RISK

- Churn Rate: **38.4% (High)**
- Active Customers: **61.5%**
- **Business is losing a significant portion of customers → retention strategy needed**

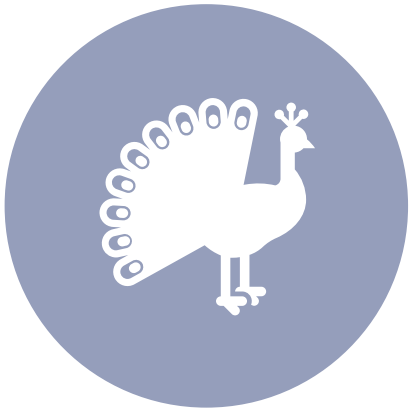
REVENUE DECLINE ANALYSIS

Revenue ↓ over time

Active customers ↓ at same rate

Revenue loss is driven by customer drop-off, not reduced spending

REVENUE CONCENTRATION



LOYAL USERS = **12.7%**

CONTRIBUTION = **21.3% REVENUE**

SMALL SEGMENT GENERATES DISPROPORTIONATE REVENUE → PRIORITIZE RETENTION

CHANNEL EFFECTIVENESS

- Brochure → **Highest conversion (69%)**
- Instagram → **Highest spend customers**
- Facebook → Stable
- Twitter → Weak performance
- Reallocate budget → Instagram & Brochure

MARKET PERFORMANCE

- Spain → Highest total revenue
- Canada/Germany → Highest avg spend
- Montenegro → High but low sample
- Growth opportunity in **high-value markets**

BUYING BEHAVIOR

Liquor = Top product

No kids → In-store

1 kid → Online

Customer behavior varies → requires targeted marketing

BUSINESS ACTIONS

LAUNCH RETENTION CAMPAIGNS (BEFORE 60 DAYS)

INCREASE BUDGET: INSTAGRAM + BROCHURE

REDUCE SPEND: TWITTER

FOCUS ON HIGH-VALUE CUSTOMERS
